Summary

Senior Flutter Developer I'm a Senior Flutter Developer with a passion for crafting exceptional mobile experiences. With 5 years of expertise in Dart programming, I specialize in creating high-performance cross-platform apps for both iOS and Android. My skill set extends to seamless API integration, ensuring apps run smoothly and efficiently. I can lead your mobile development project, drive innovation, and deliver outstanding user-friendly applications.

Experience

PalomaPOS
USA (Remote)

Senior Flutter developer (Part Time)
06/2024 - Present

- **Mobile App Architecture**: Establish and enforce mobile app architecture patterns, ensuring scalability, maintainability, and performance optimization.
- **Backend Integration**: Collaborate with backend teams to integrate RESTful APIs, ensuring seamless communication between the frontend and backend systems.
- **UI/UX Implementation**: Work closely with UI/UX designers to translate designs into high-quality user interfaces and enhance user experiences.

Dclick Company
United Kingdom (Remote)

Senior Flutter developer
11/2023 - 09/2024

- I played a pivotal role in the software development process utilizing Azure DevOps
- Creating pipelines for projects and helping developers to create them by themselves for Azure pipelines
- Conducting thorough code reviews and implementing quality assurance processes to maintain high coding standards and deliver robust, efficient, and user-friendly applications
- Focused on writing efficient unit and widget tests to ensure the reliability and functionality of our Flutter applications

Bydotpy Company
Egypt

Senior Flutter Developer
10/2022 - 11/2023

- I adeptly guide and inspire a team of developers in creating cutting-edge cross-platform mobile applications
- Team Supervision: Providing guidance, mentorship, and support to the Flutter development team, ensuring they have the resources and direction needed to meet project goals
- Code Review and Quality Assurance: Conducting thorough code reviews and implementing quality assurance processes to maintain high coding standards and deliver robust, efficient, and user-friendly applications
- Technical Leadership: Offering technical expertise and serving as a point of contact for complex problem-solving and decision-making within the team
- CI/CD: Creating workflows for projects and help developers to create them by themselves for Github Actions

Towebia Company
Egypt

Flutter developer
03/2021 - 10/2022

- App Development: Creating and implementing mobile applications for iOS and Android platforms using the Flutter framework
- Coding and Testing: Writing efficient, maintainable, and reusable code while conducting thorough testing to ensure application stability and performance
- UI/UX Design: Collaborating with designers to translate UI/UX design wireframes and mockups into responsive and visually appealing mobile applications
- Integration: Integrating data from various back-end services and databases, as well as external APIs, to enhance the functionality of the mobile applications
- Troubleshooting and Debugging: Identifying and resolving any technical issues or bugs that arise during the development and testing phases of the application

Experience

Upwork   Location

Freelancer Flutter Developer   02/2020

- Top Rated Flutter Developer
- Upwork Profile: https://www.upwork.com/freelancers/-016ac878d0fc752ed6
- Successfully completed 25 projects and 93 hours on Upwork, specializing in cross-platform mobile application development using Flutter
- All feedback is very positive, and clients have rated me with 5 stars
- Utilized Dart programming language, Flutter SDK, and various third-party integrations to deliver efficient and visually appealing mobile applications
- Managed communication with clients to understand project requirements and deliver applications that met or exceeded their expectations
- Demonstrated strong problem-solving skills and an ability to debug complex issues, ensuring smooth functionality and user experience

Education

Banha University   Location

Bachelor's Degrees in Computer Science   01/2016 - 01/2020

- Grade: very good with honor
- ◆ As an accomplished ACM Problem Solver, I participated in ECPC in 2018 and 2019 and taught students in
- College competitive programming and algorithms
